Requirements for Claiming the Benefit of Prior-Filed Applications Under Eighteen-Month Publication of Patent Applications

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice of proposed rulemaking.

SUMMARY: In implementing the provisions of the American Inventors Protection Act of 1999 related to the eighteen-month publication of patent applications, the United States Patent and Trademark Office (Office) revised the rules of practice related to requirements for claiming the benefit of a prior-filed application. The Office is now proposing to revise the time period for claiming the benefit of a prior-filed application in an application filed under the Patent Cooperation Treaty (PCT), revise the time period for filing an English language translation of a non-English language provisional application, and make other technical corrections to the rules of practice related to eighteen-month publication. The Office is also proposing to make permanent a temporary rule that amends the rules of practice to include the current statutory provisions that define when national stage commencement occurs in an application filed under the PCT.

DATES: To be ensured of consideration, written comments must be received on or before October 5, 2001. No public hearing will be held.

ADDRESSES: Comments should be sent by electronic mail message over the Internet addressed to AB41comments@uspto.gov. Comments may also be submitted by mail addressed to: Box Comments—Patents, Commissioner for Patents, Washington, DC 20231, or by facsimile to (703) 872-9399, marked to the attention of Robert A. Clarke. Although comments may be submitted by mail or facsimile, the Office prefers to receive comments via the Internet. If comments are submitted by mail, the Office prefers that the comments be submitted on a DOS formatted 3 1/2 inch disk accompanied by a paper copy.

The comments will be available for public inspection at the Office of the Commissioner for Patents, located in

Crystal Park 2, Suite 910, 2121 Crystal Drive, Arlington, Virginia, and will be available through anonymous file transfer protocol (ftp) via the Internet (address: <http://www.uspto.gov>). Since comments will be made available for public inspection, information that is not desired to be made public, such as an address or phone number, should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Robert A. Clarke or Joni Y. Chang, Legal Advisors, Office of Patent Legal Administration, by telephone at (703) 308-6906, or by mail addressed to: Box Comments—Patents, Commissioner for Patents, Washington, DC 20231, or by facsimile to (703) 872-9399, marked to the attention of Robert A. Clarke.

SUPPLEMENTARY INFORMATION: The American Inventors Protection Act of 1999 was enacted into law on November 29, 1999. See Public Law 106-113, 113 Stat. 1501, 1501A-552 through 1501A-591 (1999). The American Inventors Protection Act of 1999 contained a number of changes to title 35, United States Code, including provisions for the publication of pending applications for patent, with certain exceptions, promptly after the expiration of a period of eighteen months from the earliest filing date for which a benefit is sought under title 35, United States Code (“eighteen-month publication”). The Office implemented the eighteen-month publication provisions of the American Inventors Protection Act of 1999 in a final rule published in September of 2000. See *Changes to Implement Eighteen-Month Publication of Patent Applications*, 65 FR 57023 (Sept. 20, 2000), 1239 *Off. Gaz. Pat. Office* 63 (Oct. 10, 2000) (final rule).

Section 4503(b) of the American Inventors Protection Act of 1999 amended 35 U.S.C. 119(e) and 120 to provide that no application shall be entitled to the benefit of a prior-filed application unless an amendment containing the specific reference to the prior-filed application is submitted at such time during the pendency of the application as required by the Office. Section 4503(b) of the American Inventors Protection Act of 1999 also amended 35 U.S.C. 119(e) and 120 to permit the Office to establish procedures for accepting an unintentionally delayed claim for the benefit of a prior-filed application. This notice proposes to amend 37 CFR 1.78 to: (1) Clarify the requirements for claiming the benefit of a prior-filed application in an application filed under the PCT; and (2) revise the time period and requirements for filing an English language translation of a non-

English language provisional application.

35 U.S.C. 371(b) currently sets forth the time period for commencement of the national stage in an application filed under the PCT. Due to a possible statutory revision of 35 U.S.C. 371(b) to provide that the time period for commencement of the national stage will be set forth in the regulations, the Office is amending § 1.491 such that the regulations set forth the current language of 35 U.S.C. 371(b) (as amended by Pub. L. 99-616, section 7(b), 100 Stat. 3485, 3485 (1986)) that defines when national stage commencement occurs. Certain U.S. statutes and regulations provide for requirements that are tied to the date of national stage “commencement” (e.g., the date of national stage commencement is relevant to the due date for the national fee, an oath or declaration, and any required translation of the international application or amendments under PCT Article 19 (35 U.S.C. 371(d)), and in determining whether patentees are entitled to a patent term adjustment pursuant to 35 U.S.C. 154(b)(1)(B) (37 CFR 1.702(b))). Therefore, it is important that the regulations provide for a date of commencement of the national stage as to the United States in advance of any statutory revision to 35 U.S.C. 371(b).

Discussion of Specific Rules

Title 37 of the Code of Federal Regulations, Part 1, is proposed to be amended as follows:

Section 1.78

Section 1.78(a)(1) is proposed to be amended to make its provisions applicable to international applications designating the United States of America. The phrase “nonprovisional application” as used in the rules of practice means either an application filed under 35 U.S.C. 111(a) or an international application filed under 35 U.S.C. 363 that entered the national stage after compliance with 35 U.S.C. 371. See § 1.9(a)(3). Thus, provisions which apply only to a nonprovisional application (e.g., the requirement in § 1.78(a)(2)(iii) for a specific reference in an application data sheet (§ 1.76) or the specification) do not apply to any international application that does not enter national stage processing under 35 U.S.C. 371. The specific reference requirements of 35 U.S.C. 119(e) and 120 are met in such an international application by a specific reference to the prior-filed application in the international application papers (e.g., in the Request (PCT Rule 4.10 and

§ 1.434(d)(2)), or a correction or addition in accordance with PCT Rule 26*bis*).

Section 1.78(a)(2) is proposed to be amended to place its provisions in separate paragraphs (a)(2)(i) through (a)(2)(iv) for clarity. Sections 1.78(a)(2) is also proposed to be amended to also make its provisions applicable to international applications designating the United States of America, and to set forth the time period for making a claim (providing the specific reference required by § 1.78(a)(2)(i)) for both an application filed under 35 U.S.C. 111(a) and an international application designating the United States of America which entered the national stage after compliance with 35 U.S.C. 371.

Specifically, if the later-filed application is an application filed under 35 U.S.C. 111(a), the specific reference required by § 1.78(a)(2)(i) must be submitted within the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior application. If, however, the later-filed application is a nonprovisional application which entered the national stage from an international application after compliance with 35 U.S.C. 371, the specific reference required by § 1.78(a)(2)(i) must be submitted within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. This reference must, in any event, be submitted during the pendency of the later-filed application. The provisions relating to an application filed under 35 U.S.C. 111(a) do not change the time period for submitting a specific reference in such applications. The provisions relating to an international application designating the United States of America which entered the national stage after compliance with 35 U.S.C. 371, however, do change the time period for submitting a specific reference in such applications in that the four-month period is measured from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) rather than the actual filing date of the international application under 35 U.S.C. 363.

Section 1.78(a)(2) is also amended to eliminate the requirement that if the application claims the benefit of an international application, the first sentence of the specification must include an indication of whether the international application was published under PCT Article 21(2) in English. The Office is eliminating this requirement because: (1) The Office will not delay publication of the application if this

requirement is not met; and (2) this information can be obtained from other sources (e.g., the language of publication can usually be determined by the country of origin of the international application).

Section 1.78(a)(2) is also amended to change the sentence "(the identification of an application by application number under this section is the specific reference required by 35 U.S.C. 120 to every application assigned that application number)" to "(the identification of an application by application number under this section is the identification of every application assigned that application number necessary for a specific reference required by 35 U.S.C. 120 to every such application assigned that application number." This change clarifies that the other provisions of § 1.78(a)(2) (e.g., that the claim be in the application data sheet or the first sentence of the specification) remain applicable when an application under § 1.53(b) claims the benefit under 35 U.S.C. 120 of a continued prosecution application filed under § 1.53(d). See *Changes to Patent Practice and Procedure*, 62 FR 53131, 53144 (Oct. 10, 1997), 1203 *Off. Gaz. Pat. Office* 63, 73 (Oct. 21, 1997) (final rule).

Section 1.78(a)(3) is proposed to be amended to change "nonprovisional application" to "application," and change "paragraph (a)(2)" to paragraph "(a)(2)(ii)" for consistency with the changes to § 1.78(a)(2).

Section 1.78(a)(3) provides that if the reference required by 35 U.S.C. 120 and § 1.78(a)(2) of this section is presented in an application after the time period provided by § 1.78(a)(2)(ii), the claim under 35 U.S.C. 120, 121, or 365(c) for the benefit of a prior-filed copending nonprovisional application or international application designating the United States may be accepted if the applicant files a petition to accept the delayed claim that is accompanied by: (1) The surcharge set forth in § 1.17(t); and (2) a statement that the entire delay between the date the claim was due under § 1.78(a)(2)(ii) and the date the claim was filed was unintentional.

If an applicant includes a claim to the benefit of a prior-filed nonprovisional application or international application designating the United States elsewhere in the application but not in the manner specified in § 1.78(a)(2)(i) (e.g., if the claim is included in an unexecuted oath or declaration or the application transmittal letter) within the time period set forth in § 1.78(a)(2)(ii), the Office will not require a petition (and the surcharge under § 1.17(t)) to correct the claim if the information concerning the

claim contained elsewhere in the application was recognized by the Office as shown by its inclusion on a filing receipt. This is because the application will have been scheduled for publication on the basis of the information concerning the claim contained elsewhere in the application within the time period set forth in § 1.78(a)(2)(ii). If, however, an applicant includes such a claim elsewhere in the application and not in the manner specified in § 1.78(a)(2)(i), and the claim is not recognized by the Office as shown by its absence on a filing receipt (e.g., if the claim is in a part of the application where priority or continuity claims are not conventionally located, such as the body of the specification), the Office will require a petition (and the surcharge under § 1.17(t)) to correct such claim. This is because the application will not have been scheduled for publication on the basis of the information concerning the claim contained elsewhere in the application.

Section 1.78(a)(4) is proposed to be amended to make its provisions applicable to international applications designating the United States of America.

Section 1.78(a)(5) is proposed to be amended to place its provisions in separate paragraphs (a)(5)(i) through (a)(5)(iv) for clarity. Section 1.78(a)(5) is also proposed to be amended to: (1) Make its provisions applicable to international applications designating the United States of America; (2) set forth the time period for making a claim (providing the specific reference required by § 1.78(a)(5)) for both an application filed under 35 U.S.C. 111(a) and an international application designating the United States of America which entered the national stage after compliance with 35 U.S.C. 371; and (3) change the time period and requirements for filing an English language translation of a non-English language provisional application.

Specifically, if the later-filed application is an application filed under 35 U.S.C. 111(a), the specific reference required by § 1.78(a)(5)(i) must be submitted within the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior application. If, however, the later-filed application is a nonprovisional application which entered the national stage from an international application after compliance with 35 U.S.C. 371, the specific reference required by § 1.78(a)(5)(i) must be submitted within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen

months from the filing date of the prior application. This reference must, in any event, be submitted during the pendency of the later-filed application. The provisions relating to an application filed under 35 U.S.C. 111(a) do not change the time period for submitting a specific reference in such applications. The provisions relating to an international application designating the United States of America which entered the national stage after compliance with 35 U.S.C. 371, however, do change the time period for submitting a specific reference in such applications in that the four-month period is measured from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) rather than the actual filing date of the international application under 35 U.S.C. 363.

Section 1.78(a)(5) is also proposed to be amended to provide that if a provisional application was filed in a language other than English and an English-language translation of the provisional application and a statement that the translation is accurate were not previously filed in the provisional application or the nonprovisional application, applicant will be notified and given a period of time within which to file an English-language translation of the non-English-language provisional application and a statement that the translation is accurate to avoid abandonment of the nonprovisional application. Thus, § 1.78(a)(5) will no longer provide that if a provisional application was filed in a language other than English, a claim to the benefit of such provisional application is waived if an English language translation of a non-English language provisional application is not submitted within the later of four months from the actual filing date of the nonprovisional application or sixteen months from the filing date of the prior provisional application. In the event that the Office schedules for publication an application that claims the benefit of a provisional application filed in a language other than English without issuing a notice requiring the applicant to file English-language translation of the non-English-language provisional application, the applicant should file the English-language translation of the non-English-language provisional application and a statement that the translation is accurate before the scheduled publication date. This change to § 1.78(a)(5) will also allow applicant to file an English-language translation of a non-English language provisional application either in the provisional application or in each nonprovisional application that claims

the benefit of the provisional application.

Section 1.78(a)(5) is also proposed to be amended to delete the term "copending," as 35 U.S.C. 119(e) no longer requires copendency between a nonprovisional application and a provisional application for the nonprovisional application to claim the benefit of the filing date of the provisional application under 35 U.S.C. 119(e). 35 U.S.C. 119(e)(1) continues to require that any nonprovisional application claiming the benefit of a provisional application be filed within twelve months after the filing date of the provisional application (or the next succeeding business day if the date that is twelve months after the filing date of the provisional application falls on a Saturday, Sunday, or Federal holiday). *See Request for Continued Examination Practice and Changes to Provisional Application Practice*, 65 FR 50092, 50098 (Aug. 16, 2000), 1238 *Off. Gaz. Pat. Office* 13, 18–19 (Sept. 5, 2000) (final rule) (comment 2 and response).

Section 1.78(a)(6) provides that if the reference required by 35 U.S.C. 119(e) and paragraph (a)(5) of this section is presented in an application after the time period provided by § 1.78(a)(5)(ii), the claim under 35 U.S.C. 119(e) for the benefit of a prior-filed provisional application may be accepted if the applicant files a petition to accept the delayed claim that is accompanied by: (1) The surcharge set forth in § 1.17(t); and (2) a statement that the entire delay between the date the claim was due under § 1.78(a)(5)(ii) and the date the claim was filed was unintentional.

If an applicant includes a claim to the benefit of a prior-filed provisional application elsewhere in the application but not in the manner specified in § 1.78(a)(5)(i) (e.g., if the claim is included in an unexecuted oath or declaration or the application transmittal letter) within the time period set forth in § 1.78(a)(5)(ii), the Office will not require a petition (and the surcharge under § 1.17(t)) to correct the claim if the information concerning the claim contained elsewhere in the application was recognized by the Office as shown by its inclusion on a filing receipt. This is because the application will have been scheduled for publication on the basis of the information concerning the claim contained elsewhere in the application within the time period set forth in § 1.78(a)(5)(ii). If, however, an applicant includes such a claim elsewhere in the application and not in the manner specified in § 1.78(a)(5)(i), and the claim is not recognized by the Office as shown by its absence on a filing receipt (e.g.,

if the claim is in a part of the application where priority or continuity claims are not conventionally located, such as the body of the specification), the Office will require a petition (and the surcharge under § 1.17(t)) to correct such claim. This is because the application will not have been scheduled for publication on the basis of the information concerning the claim contained elsewhere in the application.

Section 1.311

Section 1.311(a) is proposed to be amended to correct the parenthetical reference to "(§ 1.211(f))" to "(§ 1.211(e))."

Section 1.434

Section 1.434(d)(2) is proposed to be amended by deleting the term "copending," as the prior national application may be a provisional application and 35 U.S.C. 119(e) no longer requires copendency for a nonprovisional application to claim the benefit of the filing date of a provisional application under 35 U.S.C. 119(e).

Section 1.491

Section 1.491 is proposed to be amended to define both commencement of the national stage and entry into the national stage. Because these two events (commencement of the national stage and entry into the national stage) may not take place at the same time, the Office is amending § 1.491 to clarify when each of these two events takes place. Section 1.491(a) specifically indicates that, subject to 35 U.S.C. 371(f), the national stage shall commence with the expiration of the applicable time limit under PCT Article 22(1) or (2), or under PCT Article 39(1)(a). Thus, § 1.491(a) merely incorporates the statutory language contained in 35 U.S.C. 371(b) (as amended by Pub. L. 99–616, § 7(b), 100 Stat. 3485, 3485 (1986)). Section 1.491(b) contains the provisions of former § 1.491, and provides that an international application enters the national stage when the applicant has filed the documents and fees required by 35 U.S.C. 371(c) within the period set in § 1.494 or § 1.495.

On August 30, 2001, the Office published a temporary rule that amends § 1.491 to define both commencement of the national stage and entry into the national stage in the manner discussed above. This notice proposes to make the amendment to § 1.491 in that temporary rule permanent.

Classification

Administrative Procedure Act

The changes proposed in this notice concern only the procedures for filing claims for the benefit of a prior-filed application under 35 U.S.C. 119(e) or 120, the procedures for filing an English language translation of a non-English language provisional application, and technical corrections to the provisions of §§ 1.78, 1.311, 1.434, and 1.491. Because all of the changes relate to Office practices and procedures, prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553(b)(A) (or any other law). However, because the Office desires the benefit of public comment on this topic, the Office is voluntarily accepting comments.

Regulatory Flexibility Act

As prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553 (or any other law), an initial regulatory flexibility analysis under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) is not required. *See* 5 U.S.C. 603.

Executive Order 13132

This rulemaking does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 13132 (Aug. 4, 1999).

PART 1—RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR part 1 continues to read as follows:

Authority: 35 U.S.C. 2(b)(2).

2. Section 1.78 is amended by revising paragraph (a) to read as follows:

§ 1.78 Claiming benefit of earlier filing date and cross references to other applications.

(a)(1) A nonprovisional application or international application designating the United States of America may claim an invention disclosed in one or more prior-filed copending nonprovisional applications or copending international applications designating the United States of America. In order for an application to claim the benefit of a prior-filed copending nonprovisional application or copending international application designating the United States of America, each prior application must name as an inventor at least one inventor named in the later-filed application and disclose the named inventor's invention claimed in at least one claim of the later-filed application in the manner provided by the first paragraph of 35 U.S.C. 112. In addition, each prior application must be:

(i) An international application entitled to a filing date in accordance

with PCT Article 11 and designating the United States of America; or

(ii) Complete as set forth in § 1.51(b); or

(iii) Entitled to a filing date as set forth in § 1.53(b) or § 1.53(d) and include the basic filing fee set forth in § 1.16; or

(iv) Entitled to a filing date as set forth in § 1.53(b) and have paid therein the processing and retention fee set forth in § 1.21(l) within the time period set forth in § 1.53(f).

(2)(i) Except for a continued prosecution application filed under § 1.53(d), any nonprovisional application or international application designating the United States of America claiming the benefit of one or more prior-filed copending nonprovisional applications or international applications designating the United States of America must contain or be amended to contain a reference to each such prior application, identifying it by application number (consisting of the series code and serial number) or international application number and international filing date and indicating the relationship of the applications. Cross references to other related applications may be made when appropriate (see § 1.14).

(ii) This reference must be submitted during the pendency of the later-filed application. If the later-filed application is an application filed under 35 U.S.C. 111(a), this reference must also be submitted during the pendency of the later-filed application and within the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior application. If the later-filed application is a nonprovisional application which entered the national stage from an international application after compliance with 35 U.S.C. 371, this reference must also be submitted during the pendency of the later-filed application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. These time periods are not extendable. Except as provided in paragraph (a)(3) of this section, the failure to timely submit the reference required by 35 U.S.C. 120 and paragraph (a)(2)(i) of this section is considered a waiver of any benefit under 35 U.S.C. 120, 121, or 365(c) to such prior application. The time periods set forth in this paragraph do not apply to an application for a design patent.

(iii) If the later-filed application is a nonprovisional application, the reference required by this paragraph

must be included in an application data sheet (§ 1.76) or the specification must contain or be amended to contain such reference in the first sentence following the title.

(iv) The request for a continued prosecution application under § 1.53(d) is the specific reference required by 35 U.S.C. 120 to the prior application. The identification of an application by application number under this section is the identification of every application assigned that application number necessary for a specific reference required by 35 U.S.C. 120 to every such application assigned that application number.

(3) If the reference required by 35 U.S.C. 120 and paragraph (a)(2) of this section is presented in an application after the time period provided by paragraph (a)(2)(ii) of this section, the claim under 35 U.S.C. 120, 121, or 365(c) for the benefit of a prior-filed copending nonprovisional application or international application designating the United States of America may be accepted if the reference identifying the prior application by application number or international application number and international filing date was unintentionally delayed. A petition to accept an unintentionally delayed claim under 35 U.S.C. 120, 121, or 365(c) for the benefit of a prior-filed application must be accompanied by:

(i) The surcharge set forth in § 1.17(t); and

(ii) A statement that the entire delay between the date the claim was due under paragraph (a)(2)(ii) of this section and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

(4) A nonprovisional application other than for a design patent or an international application designating the United States of America may claim an invention disclosed in one or more prior-filed provisional applications. In order for an application to claim the benefit of one or more prior-filed provisional applications, each prior provisional application must name as an inventor at least one inventor named in the later-filed application and disclose the named inventor's invention claimed in at least one claim of the later-filed application in the manner provided by the first paragraph of 35 U.S.C. 112. In addition, each prior provisional application must be entitled to a filing date as set forth in § 1.53(c), and the basic filing fee set forth in § 1.16(k) must be paid within the time period set forth in § 1.53(g).

(5)(i) Any nonprovisional application or international application designating the United States of America claiming the benefit of one or more prior-filed provisional applications must contain or be amended to contain a reference to each such prior provisional application, identifying it by the provisional application number (consisting of series code and serial number).

(ii) This reference must be submitted during the pendency of the later-filed application. If the later-filed application is an application filed under 35 U.S.C. 111(a), this reference must also be submitted within the later of four months from the actual filing date of the later-filed application or sixteen months from the filing date of the prior provisional application. If the later-filed application is a nonprovisional application which entered the national stage from an international application after compliance with 35 U.S.C. 371, this reference must also be submitted and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior provisional application. These time periods are not extendable. Except as provided in paragraph (a)(6) of this section, the failure to timely submit the reference is considered a waiver of any benefit under 35 U.S.C. 119(e) to such prior provisional application.

(iii) If the later-filed application is a nonprovisional application, the reference required by this paragraph must be included in an application data sheet (§ 1.76) or the specification must contain or be amended to contain such reference in the first sentence following the title.

(iv) If the provisional application was filed in a language other than English and an English-language translation of the provisional application and a statement that the translation is accurate were not previously filed in the provisional application or the nonprovisional application, applicant will be notified and given a period of time within which to file an English-language translation of the non-English-language provisional application and a statement that the translation is accurate to avoid abandonment of the nonprovisional application.

(6) If the reference required by 35 U.S.C. 119(e) and paragraph (a)(5) of this section is presented in an application after the time period provided by paragraph (a)(5)(ii) of this section, the claim under 35 U.S.C. 119(e) for the benefit of a prior-filed provisional application may be accepted during the pendency of the later-filed

application if the reference identifying the prior application by provisional application number was unintentionally delayed. A petition to accept an unintentionally delayed claim under 35 U.S.C. 119(e) for the benefit of a prior-filed provisional application must be accompanied by:

(i) The surcharge set forth in § 1.17(t); and

(ii) A statement that the entire delay between the date the claim was due under paragraph (a)(5)(ii) of this section and the date the claim was filed was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional.

3. Section 1.311 is amended by revising paragraph (a) to read as follows:

§ 1.311 Notice of allowance.

(a) If, on examination, it appears that the applicant is entitled to a patent under the law, a notice of allowance will be sent to the applicant at the correspondence address indicated in § 1.33. The notice of allowance shall specify a sum constituting the issue fee which must be paid within three months from the date of mailing of the notice of allowance to avoid abandonment of the application. The sum specified in the notice of allowance may also include the publication fee, in which case the issue fee and publication fee (§ 1.211(e)) must both be paid within three months from the date of mailing of the notice of allowance to avoid abandonment of the application. Approval and Promulgation of Air Quality Implementation Plans; Maryland; Control of VOC Emissions From Marine Vessel Coating Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Maryland State Implementation Plan (SIP) revision. The revision establishes and imposes reasonably available control technology to reduce volatile organic compound (VOC) emissions from marine vessel coating operations. In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by October 5, 2001.

Sulfuryl Fluoride; Proposed Pesticide Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This document proposes to establish temporary tolerances for sulfuryl fluoride and inorganic fluoride residues resulting from application of sulfuryl fluoride in or on walnuts and raisins under the Federal Food, Drug, and Cosmetic Act, as amended by the Food Quality Protection Act of 1996. This fumigant is being proposed as a methyl bromide alternative in the post-harvest fumigation of stored walnuts and raisins. These temporary tolerances would support a proposed 3-year experimental use permit (EUP) effective between September 24, 2001 and September 24, 2004, conducted by Dow AgroSciences entirely in the state of California. The temporary tolerances will expire April 1, 2006. This will allow approximately 18 months after the end of the EUP, for all the treated commodities to clear commerce.

DATES: Comments, identified by docket control number OPP-301166 must be received on or before October 5, 2001.
